WORK EXPERIENCE

Wordpress Landing Page design

2022

This Project was From a freelancing market place . It took 1Month to finish the project.The client was from Canada. landing Page was about this Porfolio. and i used WordPress CMS ,because It's a morden and advance CMS in this time. And I've used Elementor Builder to built the side.

WooCommerce store Built

2023

It was my 1st experience of building Ecommerce website. This project was also from a freelancing market place. and the client has a groceries Business, I've used martfury theme to design the store also built that with Elementor builder. I've also use some plugins like woocommerce, stripe,martfury adon PLugins etc.

A Blog website by WIX

2023

It was a simple Project.I just add the hosting with wix then I add simple Blog Theme.Then I add vedio app,image app and text app in the wix and design it as the clientsrequirments. It took 5 Hours to complete the project.

Design a Professional Agency Website

2024

I have got team work experience in this project. Me and other member done this project within 1.5months.the website was build with Elementor in WordPress CMS.
